Assembling

Unpack

Check your product box for the following items
- TRIPLTEK 7"
- User manual
- USB Power charger
- USB to USBc cable
- USB to USBc adapters
- USBc to USBc extension
- SIM adapter kit

There are additional accessories available. Visit TRIPLTEK website.

Charge the battery

Before using the device for the first time, you must charge the battery.
1. You can charge the device with a USB power adapter or by connecting the device to a computer with a USB cable.

Warning：Use only original batteries and chargers. Unapproved chargers or cables can cause batteries to explode or damage your device.

Install the SIM card

You need to insert a SIM card to use the Phone function. The SIM card is Full size. To install the SIM card, follow the instructions below:
1. Place the FULL SIZE SIM card into the slot with the chip facing the back of the tablet.
2. Press it until you hear a click.

Install the SD card

To have an additional store, you can use a SD card.
1. Place the SD into the slot.
2. Press it until you hear a click.

Notice: TRIPLTEK uses approved industry standards for memory sd cards, but some brands may not be fully compatible with your device.

Getting started

Turn on your device, reboot, and shut down

To turn on your device, press and hold the power key. To reboot your device, press and hold the power key, select **"reboot"**. To turn off your device, press and hold the power key, select **"power off"**.

Switch to Airplane mode

To use only your device's non-network services, switch to Airplane mode. Please follow the instructions below to turn on airplane mode: Tap **Settings > Network & Internet > Advanced > Airplane mode** from application list to turn on flight mode.

Home screen

The home screen has multiple panels. Scroll left or right to the panels on the home screen, you can view indicator icons, widgets, shortcuts to applications, and other items. Scroll up to see other APPs installed on your device.

Task bar

The task bar is shown at the top of the screen. It displays commonly used option buttons, battery level indicator, current time and other indicator icons of running apps.

Safety Precautions

Read these simple guidelines before using your device. Not following them may be dangerous or illegal.

Aircraft

Switch off in aircraft and follow any restrictions. Wireless devices can cause interference with aircraft controls.

Vehicles

Never use your device while driving. Place it in a safe place. Position your device within easy reach. Ensure you are able to access your device without removing your eyes from the road.

Electronic devices

In some circumstances, your device may cause interference with other devices.

Potentially explosive environments

Switch off your device when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Pacemakers and other medical devices

Pacemaker manufacturers recommend that a minimum separation of 8 inches be maintained between a wireless device and a pacemaker to avoid potential interference with the pacemaker.

Operation of any radio transmitting equipment, including wireless phones may interfere with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions.

Switch off your device in health care facilities when any regulations posted in these areas instruct you to do so.

www.tripltek.com

Operating environment

When connecting to another device, read its user guide for detailed safety instructions. Do not connect incompatible products.

Do not place your device in the airbag deployment area. Use the device only in its normal operating positions as explained in the product documentation.

Always switch off your device when its use is prohibited or when it may cause interference and danger.

Areas with posted regulations

Switch off your device when any regulations posted in these areas instruct you to do so as it may interfere with proper function of any equipment that may be nearby.

Care & Maintenance

● Use only manufacturer-approved accessories. Using general accessories may shorten the life of your device or cause the device to malfunction.
● Keep your device dry. Humidity and all types of liquids may damage device parts or electronic circuits.
● Do not use or store the device in dusty, dirty areas.
● Do not store the device in hot or cold areas.
● Do not store your device near magnetic fields.
● Do not store your device with metal objects as coins, keys and necklace.
● Do not drop your device or cause impacts to your device.

Warnings

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules.

Operation is subject

to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

● Reorient or relocate the receiving antenna.
● Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
